Group: Science (2013)
*GPA:* **5.00** Out of **5.00**

## PROJECTS

### E-Bank

- **Technology:** HTML, CSS, Laravel framework, JavaScript, phpMyAdmin
- **Summary:** This is an E-Banking system where I have developed a full front-end and back-end system for money exchange officer. He can register and login to the system and also can view, add, delete and update the request of clients for money exchange. Money exchange officer can also search, view and download clients account details as a pdf. The money exchange officer can also convert any currency to any other currency at the standard market rates.
